

Simon Townshend, Believe In You

Mother was taken by surprise
-little girl had lost her eyes
We all wanna believe in you
when there's nothing else we can do
Planned out your life from scene to scene
- a broken heart by a broken dream
We all wanna believe in you
when there's nothing else we can do
In the papers- hear the cries
there's been problems- in our skies
The whole country on one knee
Now we all wanna believe in you
we all wanna believe in you
Darling was smashed up in his car
doctor says there's a chance
We all wanna believe in you
when there's nothing else we can do
Christmas was just for the family
till a boy got lost at sea
We all wanna believe in you
when there's nothing else we can do
On our T.V.- word breaks out
deadly virus- all life in doubt
Two by two in a queue
Cause we all wanna believe in you
when there's nothing else we can do
We all wanna believe in you
when there's nothing else we can do
When war broke out
the kids would shout
you can't need me
I'm 17
Oh God help me
We all wanna believe in you
when there's nothing else we can do
