

Simon Townshend, Capture

My love for you will never die for you
Capture a moment in time
My love for you will never fly you will always
Be there in my mind
A piece of me stay a while longer
A bit of me would lay in your arms
You're all I see and I want the adventure
Hidden in the scheme of things
This is something you can't take away
Swimming in a sea of it
This is part of the usual day
A little heat a gentle reminder
A bit of me could never forget
You'll all I see I want to remember
Never known you but I know you so well
I'll never shown you show you I will
This is for me
My love for you will never die for you
Capture a moment in time
My love for you will never fly you will always
Be there in my mind
A piece of me stay a while longer
A bit of me would lay in your arms
You're all I see and I want the adventure
Of love
For you capture, capture a moment in time
My love for you my love for you
My love for you my love for you
