

Simon Townshend, Cats Away

As we hit the road again
We all know what
well be getting
One more town and
one more long ride
Another show another wedding
The cats away
the mice will play any way
The cats away
the mice will play any way
In the air can't help wondering
Who it is at home that's giving
In and out of every city
Gonna play New York
for New York women
The cats away
the mice will play any way
The cats away
the mice will play any way
And while I'm gone
I've got no clue of what goes on
But don't look at me
Cause I ain't no saint to judge upon
This cats away- the cats away
