

Simon Townshend, Cold Water

Cold water pure cold water
Water on my face water on my skin
Cleanse the soul of me dirty from sin
Cold water running down the street
Do you remember me?
Cold water pure cold water
Water on my face water on my skin
Cool off the hatred on my skin
Cool off the hatred that's burning me within
Cold water running down the street
Do you remember me?
Cold water flowing in the sea
Diving in oh the rush
Knowing it's someone you trust
Flowing cold water, pure cold water
In cold water, pure cold water in cold water
Pure cold water
Cold water running down the street
Do you remember me?
In cold water pure cold water
Cold water running down the street
Do you remember me?
