

Simone White, The Beep Beep Song

Beep beep beep beep beep beep beep
Go the horns in the cars in the street
We walked away from the over's leap
Opposite directions
Synchronised feet
Wait wait wait wait wait wait wait
For the time it takes a heart to mend a break
How many moons are reflected in the lake
Can you wait forever if time is all it takes
Despite all the warnings
I landed like
A fallen star
In your arms
Beat beat beat beat beat beat beat
Goes my heart on the side of my sleeve
Whispering something I can hardly believe
Let me take the lead
cos love is all we need
