

Simple Plan, What If

What if I lead the way
What if I make mistakes
What if I change the world
What if I take the blame

I remember going back to the place we used to lay
But I keep losing track
Another days, they all turn black
And our dreams all start to fade
But there's no turning back

Cuz the world keeps turning
And my heart's still burning

[Refrain]
What if I change the world
If I lead the way
What if I be the one who takes the blame
What if I can't go on without you
What if I graduate
What if I don't
What if I don't

I was slowly, giving up
As the world keeps losing faith
And you still turn your back
Another path I follow takes a toll on me, on you
But there's no turning back

Cuz the world keeps turning
And my heart's still burning

[Refrain]

I'll be waiting here
I'll be waiting here
I'll be waiting here
For you to call me

Ohh..

What if I lead the way
What if I graduate
What if I change the world
Would you still remember me?
What if I lead the way
What if I graduate
What if I change the world
And I found the words to tell you right to me (?)

I'll be waiting here
I'll be waiting here
I'll be waiting here
For you to call me

I'll be waiting here
I'll be waiting here
I'll be waiting here
