

Simplified, Elephant Sky

I don't mind the way I feel
Tripping through a daydream of mine
Some days seem so surreal
Got no time left for me to steal

All I want is a beautiful girl
Some warm sunshine to fill my world
And I see the smile and the love in her eyes
Underneath those, underneath those elephant skies

Here's another shocker she loves me so
Seeing all the feelings she won't show
A space beside her and I'm cool there
All of my time with her I'll share
