

Simplified, Zygote

I've been acting a little crazy,
At least my friends all say,
I picture you,
In the morning,
You take my breathe away,

It's your backstroke in the morning,
It's that sunlight in your hair,
It's the way I feel when I'm with you,
I have not got a care,

Cause it's you,
I've got no doubt,
It's you,
I can't do without,

Lately all my thoughts been hazy,
Clouded up with you,
I picture you,
In the morning,
You take my breathe away,

We met on a summer day,
Took a lot of courage just to say "hey",
Cause she was smoking,
She had sauce,
Had to make her mine now at any cost,
Said baby please,
Give your love to me,
Said baby please,
Don't say no to me,
Stepping out with our friends,
Laughing out loud,
You know it never ends,
I like,
Being with you in the summer,
I can't break this spell that I'm under,

Now it's on,
No I'm never alone,
Think about you girl,
You're calling on the phone,
And I'm through,
Never messing around,
Tell this whole world,
Said baby please,
Don't say no to me,
Kicking back there's no better way,
That I can think of now to spend my day than,
Being with you in the summer,
I can't break this spell that I'm under,

Baby,
Give me your love
