

Simply Waiting, Get On

Theres fear in what we thought we saw ahead
The ghosts of those who never even lived
The backend of the avenue
Underneath the traveled route
Theres fear in what we thought we saw ahead
Get on get out get over it
Get on get out get over it
A thousand different ways to say we tried
A thousand opportunities pass by
But in the end were sitting still
Where complications never will
Its better simpler safer pacified
A thousand different ways to say we tried
A thousand opportunities pass by
Get on get out get over it
Get on get out get over it
Get on get out get over it
Get on get out get over it
Theres fear in what we thought we saw ahead
The ghosts of those who never even lived
The backend of the avenue
Underneath the traveled route
Theres fear in what we thought we saw ahead
Get on get out get over it
Get on get out get over it
Get on get out get over it
Get on get out get over it
Get on get out get over it
Get on get on get on get on
