

# Since By Man, It's Just That Kinda Night

it's the eve of the apocalypse  
and all anyone wants is a date  
it's the end of the world  
and all i want is you  
count down count down count down to the zero hour (x2)  
breathe cause this is it  
close your eyes i need it  
just breathe girl you gotta come up for air  
and baby you you are why i stare stare  
i will write around you in chalk  
and draw you out  
just look girl you gotta open your eyes  
our blood is spilling spilling like my lies lies  
keep an eye on the clock and cause time is up  
what do you say time us up  
please end with me  
it's the eve of the apocalypse  
and all anyone wants is a date  
it's the end of the world  
and all i want is you  
times up (x4) girl  
you got me just say say when
