

Since By Man, Light Fuse Get Away

light the fuse get away
start the fire get away
i'd dance with the devil
if the devil's you
circle around the squares
that corner in you
the sound then slips away (x2) a way
(i don't care i don't hear what you say)
sell your soul at the crossroads
of this sweet seduction
calculate to hesitate
cause this is this is surgery (x2) surgery
(i don't care i don't hear what you say)
turn it up tear it down (x8)
tear it down (x3)
you've heard this all before
an empty call just once more
so let's get this on and you can turn it on
and you can turn this on and you can turn it
on and you can turn me on click on
get in step with our sound track (x4)
turn it up tear it down (x2)
