

# Sinister, Beyond The Superstition

Hear me, centaur of life  
Destroy this land, full of pain  
Candles burning inside of me  
My eyes are closed, yet I see

Lust versus ratio, rage against peace  
Violence controled by fear.

Face the demons of the past  
Portend a lost continent  
Follow the tracks to carnage  
Forever it will seal your fate

Beyond the superstition  
No man's land  
Beyond the superstition

Hear me, centaur of life  
Destroy this land, full of pain  
Candles burning inside of me  
Who am I to decide

Lust versus ratio, rage against peace  
Violence controled by fear.

Face the demons of the past  
Portend a lost continent  
Follow the tracks to carnage  
Forever it will seal your fate

Beyond the superstition  
No man's land  
Beyond the superstition

Face the demons of the past  
Forever they will seal your fate.
