

# Sinister, My Casual Enemy

Abstraction of the mind  
The way to survive  
Enemy of your god  
Murder among the wicked

Forlorn and avoided  
The sickness from within  
Through a dark journey  
The inner conscious is found

Evil has no complaints  
Incubated for a reason  
To object the filthy mind  
Filled with hate and prayers

Penetrated to the core  
The mastermind has delivered  
The one which I never met  
My casual enemy

My casual enemy  
Uses pain for a trial

My casual enemy  
The motion of denial

My casual enemy  
Faith is a felony

My casual enemy  
The flesh which I'll never be
