

# Sinn, Still Remember The Pain

Still remember the pain

Silent screams are burning my mind  
Frightened faces are watching me  
Shadows are dancing before my eyes  
Blood on the walls  
Fear grows stronger everyday  
Nothing can ease the pain  
Stifling air, can't breath anymore  
Claustrophobia

Broken bones, shattered skulls  
My body and soul are bleeding to death  
Groans of agony fill my realm  
Fill my realm of suffering  
Faceless men and war machines  
Are spitting out death and darkness  
The ghosts of hate are smashing my dreams  
Violence murder and terror

Still remember the pain (x4)

Silent screams are burning my mind  
Shadows are dancing before my eyes

Fear grows stronger everyday  
Stifling air, can't breath anymore

I close my eye  
And i wonder why  
I' m stranded in hell  
I close my eyes  
Wishing nothing  
But just to forget

Still remember the pain (x4)  
Still remember (x3)  
The pain
