

# Sinner, Deathwalker

I'm gonna push it hard the untouched mystery  
On the highest level, ready for speed  
Dark dimensions in the killing zone  
A detonations cracking behind the wall  
You gotta hold on, when illusion's gettin' real  
You gotta hold on, no more limits

Thunder roars and siren sounds  
I walk the darkness, hit the ground  
Sink or swim, do or die  
Sharper than a serpent's bite  
You gotta hold on, when illusion's gettin' real  
You gotta hold on, no more limits

You gotta go - deathwalker  
You gotta go - deathwalker  
You and me  
You gotta go - deathwalker  
You gotta go - deathwalker  
You and me

Far too long your time has come  
Look to the left, look to the right  
And if you're ready to rumble  
For a fight in the night  
And when your time is over you're gonna die  
You gotta hold on, when illusion's gettin' real  
You gotta hold on, no more limits

Deathwalker, deathwalker  
You gotta go
