

# Sinner, Faster Than Light

Faces come and go  
The bodies are always the same  
They're speakin' in unctuous words  
But they cheat - always the same

Conservative shorthairs  
Won't believe what we're doin'  
Their numbers up  
And our generation will rule it

Down down  
Don't let 'em bring you down  
We won't bring back their old time  
We strike back again

Faster than the light  
We speed at night  
Faster than the light  
Run for your life

Fight for the same reasons  
Establishing our rights  
We're out in the cold  
Got nothing to lose than a lonely life

Tyrannical blockheads  
Busting our arrogance  
Their numbers up  
And our generation will rule it

Down down  
Don't let 'em bring you down  
We won't bring back their old time  
We strike back again

Faster than the light  
We speed at night  
Faster than the light  
Run for your life
