

Sioen, Motorboat

tell me what's the cause
that you can be the one
living on a motorboat
living in the sun
get a tan, perfect gear
and you can prepared
for the time to step in
and be the queen
jump on board
weigh the anchor, get away
you'll never have the chance of spending such a perfect day
think that you can handle it
follow the wash of waves
it's time to step in
we'll sail away

tell me what's the cause,
getting wet but still on board
like to pull my string tie
'but I can't swim'
you can dance, you can dance to the boogie
you don't need waterproof
you've got the moves
bang against the waves
yes, you can be the one
living on a motorboat
and in the sun
ready for a wild chase
you should be amazed
(of the) fun, excitement, rythm
of this high speed race

going in time
baby you're mine
(if you) take direct line
to get you down with the boogie

tell me what's the cause
have I told you you're the one
living on a motorboat
living in the sun
and get a tan, perfect gear
like you can be prepared
for the time to step in
and be the queen
but baby be aware
it's crazy on a motorboat
did you bring the cocoa butter
'cause there's a chance of getting burned'
if you feel how warm it's getting
I know a place on shore
no chance of being spotted
we'll be alone
