

# Siouxsie and The Banshees, Love Out Me

I smash the glass into my face  
Cutting through to my disgrace  
Disregard for bone and flesh  
How can I be in such a mesh of unlikeliness?  
I smash my likeness

At my fingertips  
With this blade turned in on me  
Cutting an ancient tree  
A cutter in a forest of industry  
Upturning usurping

Love me  
Hate me  
Help me  
Save me from me  
Hold me  
Hurt me  
Stop me  
Take this love out me

Anger tinged with sadness  
It's always been like this  
Place the dagger 'twixt my breast  
My nearest and dearest  
I hurt it I hurt me  
Hurt everything around me  
There's nothing no trace  
Still cutting to find the place

Love out me! Love out me!

Anger tinged with sadness  
It's always been like this  
No nothing no one no more  
No no no no I can't take this

Love me  
Hate me  
Help me  
Save me from me  
Hold me  
Hurt me  
Stop me  
Take this love out me!

Love out me!  
Love out me!
