

Siouxsie and The Banshees, Sea Of Light

I float quietly
Without a sound
Forever and ever 'til the end of time
And see myself lying still at the scene of the crime
Lying still at the scene of the crime

Like blood in the body
Like wind in the water
I passed over to the sea of light
Follow me into the sea of light
The sea of light

The miracle skin from the rainbow's edge
Let it rain down, let it descend
Riding on a river of stars
The heavens open at the tunnel's end

Like blood in the body
Like wind in the water
I passed over to the sea of light
Follow me into the sea of light

Like blood in the body
Like wind in the water
Let it rain down, let it descend
Sea of light
The sea of light
