

# Sissel, Fire In Your Heart (Duet With Placido Domingo)

Go to the land with the heaven aglow  
Go to the home of the troll and the snow  
Lead your dream by the hand  
To wonderland  
Go for the future you know you can win  
Go for the goal that you carry within  
Go where wishes come true  
I'll go with you  
Climb the mountains, show me your heaven  
Lend me your hand when I go astray  
Life is magic when we're together  
Close to you is where I will stay  
You've got a fire in your heart  
I need your flame to warm me when we're apart  
When the world is dark I'll share your light  
You'll make my world a star in the night  
Love is forever with you as my friend  
When I am tired you cheer me again  
You're my force when I fight  
This game called life  
Climb the mountains, show me your heaven  
Lend me your hand and I'll go astray  
Life is magic when we're together  
Close to you is where I will stay  
You've got a fire in your heart  
I need your flame to warm me when we're apart  
When the world is dark I'll share your light  
You'll make my world a star in the night  
Climb the mountains, show me your heaven  
Lend me your hand and I'll go astray  
Life is magic when we're together  
Close to you is where I will stay  
You've got a fire in your heart  
I need your flame to warm me when we're apart  
When the world is dark I'll share your light  
You'll make my world a star in the night  
You'll make my world a star in the night
