

Sister Hazel, Champagne High

I wasn't looking for a lifetime with you
And I never thought it would hurt just to hear
"I do" and "I do";
And I do a number on myself
And all that I thought to be
And you'll be the one
That just left me undone
By my own, hesitation

[Pre-chorus]
and for the million hours that we were
well I'll smile and remember it all
then I'll turn and go
while your story's completed mine is a long way from done.

[Chorus]
Well I'm on a champagne high
Where will I be when I stop wondering why
On a champagne high
I'd toast to the future but that'd be a lie
On a champagne high, high

Spring turned to summer
But then winter turned to mean
The distance seemed right
At the time it was best - to leave
And to leave behind
What I once thought was fine And so real - to me
And while I'm still gone
On the quest for my song
I'm at your - celebration

[Pre-chorus]

[Chorus]

Your wagons been hitched to a star
Well now he'll be your thing that's new
Yeah what little I have you can borrow
'Cause I'm old and I'm blue...

[Pre-chorus]

Well I'm on a champagne high (so high)
Where will I be when I stop wondering why
On a champagne high (so high)
Toast to the future but that'd be a lie
On a champagne high
Where will I be when I stop wondering why
On a champagne high... high...
So high so high you left me undone
so high, so high you left me undone....
