## Sister Hazel, Effortlessly

I won't be so hard on me today I start to take myself so seriously Shouldn't be so hard just to be effortlessly It shouldn't be so hard to keep it together It shouldn't be so hard to say the right things to you It shouldn't be so hard just to be effortlessly

[Pre-Chorus] Weightless worries fall away Wasted pools of energy I want to know I want to breathe

[Chorus] Effortlessly - just be I want to be effortlessly I want to be

It shouldn't be so hard to be inspired It shouldn't be so hard just to write this song It shouldn't be so hard to be wrong or to agree It shouldn't be so hard to change the world It shouldn't be so hard just to change your mind It shouldn't be so hard just to be effortlessly

[Pre-Chorus] [Chorus]

I won't be so hard on me today I start to take myself so seriously Shouldn't be so hard just to be effortlessly

Effortlessly I want to know I want to breathe I want to simplify my needs I want to live inside this moment And just be effortlessly Just be I wanna be effortlessly I want to be
