

Sister Seven, Shelter

Rain come down, come falling down
Purified with no shelter
All at once you leave all at once
Testify that what you want is mine

And the dreams are waking me
All the dreams I'm wanting you

She'll close her eyes
And dream of shelter
She wonders why
She dreams of shelter
And all she wants is your shelter
She wants your shelter

Rings and chains then no rings and chains

In the box put your memories
Holy day, give your love away
Then you'll say that what you need is time

And the girl is shaking
All her dreams you're breaking in two

She'll close her eyes
And dream of shelter
She wonders why
She dreams of shelter
And all she wants is your shelter
She wants your shelter

And the girl is shaking
All her dreams you're breaking in two
