

Sister2Sister, Tender

reswick/werfel/muscat/muscat/muscat

hey now, boy, are all of your friends gone?

in this world, what you got to depend on?

'cause you don't know for sure, how tomorrow will treat you

you just know for sure, I'll treat you right

tender baby, tender in the night

I'm gonna be, gonna be tender, baby, tender in the night

who'll be there at the end of a long day?

who will listen when you're down and lonely?

don't you need someone, someone to talk to?

don't you'll know that I'll make everything alright

tender, baby...

when your world tumbles down and the sun and moon collide

when your pride is on the ground

I'll be the one that's here by your side
