

# Sister2Sister, Wait

Reswick/werfel/muscat/muscat/muscat

You tell me that you are ready  
You tell me baby, it's time  
You say if I really loved you  
Then I would make you mine  
Don't have to hurry  
Don't have to rush  
All we have to do is let it come to us  
All I wanna do is take it slow  
Just relax baby, chill and we'll flow  
If we can just wait  
Wait a little bit longer, baby  
If we can take  
Take a little more time to get to know each other better  
Wait  
Wait a little bit longer, baby  
I know it's hard to wait  
I say that everything's solid

I say that everything's cool  
But I don't know if I'm ready  
To take that road with you  
Don't have to hurry  
Don't have to rush  
All we have to do is let it come to us  
And I'm tryin' my best to make you see  
How much better we are gonna be  
If we can just wait  
Wait a little bit longer, baby  
If we can take  
Take a little more time to get to know each other better  
Wait  
Wait a little bit longer, baby  
I know it's hard to wait  
If you really love me  
And you understand the way I feel  
That'll tell me more than any words you say  
That what we have is real
