

Sita, Strong Winds

I've been workin' so hard and dreamin' so long
Yeah I've been learnin'
All of the art of playin' by heart
See I'm burnin'
Just out of school of breakin' the rules
Yeah I've been hurtin'
Findin' the key, the code to what's me
Now I'm certain
I feel what life's about
Still I'm just finding out
Strong winds are turning deep inside
And I feel it, and I know it
Strong winds are blowin' all around
And I ride, and I ride, and I ride
Strong winds are learnin' me to fly
And to make it
Strong winds are movin' me around
Never look down but always think twice
That's what ma mama told me
Changes will come when the future is bright
Yeah you'll see it comin'
Like the fool on the hill in need of the thrill
Pushin' you slowly
Nobody else but you and yourself
Have to worry
You'll find a time and a place
Just when you stop the chase
Voices inside will let you know
When it's time to just let go
Don't be afraid of what you feel
Just be ashore of that it's real
Strong winds are turning deep inside
And I feel it, and I know it
Strong winds are blowin' all around
And I ride, and I ride, and I ride
Strong winds are learnin' me to fly
And to make it
Strong winds are movin' me around
