Sita, Twisted

You got a nerve showing up here -

You turn around and call me crazy

Standing my ground - shedding no tears -

Hate to tell ya but I'm not your baby

Cant believe I waited this long

Your not the one who's gonna save me

Your sweet lips wont do the job

This is it and I don't mean maybe

Now that I found out what's been going on

Is you not me whose really got it wrong

Twisted

You took my mind and

Twisted - You took my heart and

Twisted

How could I have missed the way you treated me

Things ain't what they ought to be

Twisted - Took each thought and twisted

It's your screw that's loose - your neck's in the noose

Better stand up don't sit down

What I'm sayin's gonna rock you senseless

Heard what you been puttin' around

Hate to tell you but I ain't defenseless

You had you cake now spit it out

I'm takin' back all that good love I gave

Don't you try to talk it out

With every word you dig a deeper grave

Now that I found out what been going on

It you not me whose really got it wrong

Twisted

You took my mind and

Twisted - You took my heart and

Twisted

How could I have missed the way you treated me

Things ain't what they ought to be

Twisted - Took each thought and twisted

It's your screw that's loose - your neck's in the noose

Same it's all the same - there something here that

Needs my attention

Change now that I've changed I'll turn it upside

down and find a new dimension

Twisted

You took my mind and

Twisted - You took my heart and

Twisted

How could I have missed the way you treated me

Things ain't what they ought to be

Twisted - Took each thought and twisted

It's your screw that's loose - your neck's in the noose

Twisted

You took my mind and

Twisted - You took my heart and

Twisted

How could I have missed the way you treated me

Things ain't what they ought to be

Twisted - Took each thought and twisted

It's your screw that's loose - your neck's in the noose
