

Six4One, If We Alle Give A Little (Eurovision 2006)

Everybody has a dream
What will come and what will be
And hopes it soon will be reality
But a dream is not enough
There's so much we gotta do
To overcome the bitter blue
'Cause we all know one hand alone
Can never move a rock of stone
It takes us all, me and you
If we all give a little
If we all give a little
We can make this world a home for everyone
If we all give a little
We can dry a million tears
And some hope will grow out of many fears
Everybody has some strength
They could spend on someone weak
Don't let life be a game of hide-and-seek
Everyone has things to give
To someone just to carry on
And with our help, to overcome
We all have learnt a word alone
Can never touch a heart of stone
It takes much more, more of us
If we all give a little
If we all give a little
We can make this world a home for everyone
If we all give a little
We can dry a million tears
And some hope will grow out of many fears
If we give a little love
Just believe it's really worth
Many million hearts are beating on this earth
If we all give a little
If we all give a little
We can make this world a home for everyone
(For everyone)
If we all give a little
We can dry a million tears
And some hope will grow
(It will grow forever)
Out of many fears
(If we stand together)
If we give a little, just a little
(If we give a little love)
Give a little love
If we all give a little
(Just a little love)
All give a little (If we give a)
(A little) love
