

# Sixpence None the Richer, On The Run

whatever I do, wherever I go  
the same afterglow  
is keepin' me low  
don't wanna lose it  
but don't wanna stay here too long

they see you go by  
I tell you no lie  
you're up in the sky  
make everyone cry  
don't wanna lose it  
but don't wanna stay around here

## Chorus

I'm on the run again  
I'm on the run again  
but it's like what they say  
when it happens this way  
you gotta do it again and again

I hear them talkin' and they go on and on  
they think that nothing is wrong  
and so they just carry on about you  
don't wanna lose it  
but I gotta move out of here

I see them waiting there for most of the day  
I know you asked them to stay  
but they just won't go away  
don't wanna lose it  
but I gotta do it again

## Chorus

## Bridge

I know it ain't real  
but when you are near  
you're saying the things  
that I wanna hear  
don't wanna lose it  
but I gotta do it again

## Chorus
