Holy mount Zion that's where the foundation build  
Well traditionally you know say

What we don't have every ghetto youth will  
Can't take our own uno better be still  
And lef' and go 'cause you gonna draw nil  
Eh Ey, Yo  
While you spread you spill  
What we don't have every ghetto youth will  
Can't take our own uno better be still  
And lef' and go 'cause you gonna draw nil

[Capleton]

[Capleton:]

Oh what ah agony and oh what a shame  
To see my black brother goin all down the drain  
Man made to suffer and woman to feel pain  
Dey rape mi mommy mi sister I say oh what a shame  
Brother and mi father afi chop sugar cane  
Pon the plantation under stress and shame  
Pon dem hand and dem foot I just see chackles and chains  
now dem take it off and put it pon dem brain  
Through them ah mi nation fi go down the drain  
now the youths dem realize and shout the Hailie Hailie name  
Man no pet lion dat mean we can't tame  
One thing is our desire one thing is our aim  
Me say wicked Babylon and dem ah go down the drain

[Sizzla:]

Babylon while you spread you spill  
What we don't have every ghetto youth will  
Can't take our own uno better be still  
And lef' and go 'cause you gonna get nil  
Oy Oy Judgement

Oh what ah crisis you would cry facing this  
Could dem ah come with dem kit jus to take every bit  
Don't tink me doh know you are the boss fi your kit  
but our share you won't be living wit  
I tell dem how could dem cadet go down practice  
Now I see dem own face and dem own wanna vomit  
Ey ey ey you've not been kind  
I've put you up and now you leave us behind  
Now something drop from your back

nothing ah touch it cuz ah mine  
What's due onto us uno fi give we every time  
Babylon...

[Chorus: Capleton]

Babylon a use dem brain  
True dem waan d ghetto youth dem fi go down the drain  
Babylon a use dem brain  
The mark of d beast the whole ah dem a proclaim  
Babylon a use dem brain  
Them only fight against herb and dem a shipping cocaine  
Babylon a use dem brain  
Well dem you know say bad mind dem ah go burn in tha flame

Well this is one thing I cannot overstand  
dem nah teach me nothin bout mi Asian plan  
Inna the school and the college and the institution  
the curriculum that I get is European  
Ah teach me bout Marco Polo and Napoleon  
Nah teach me nuttin bout the river Nile bank  
where civilization it began  
You say thou shall not steal and should not kill no one  
yet you steal treacherize and then you teach wrong  
[Sizzla] yea yea slave and you murder all mi dad and mi mom  
But wicked Babylonian and you will love to burn  
Babylon ah....

[Sizzla:]

Tell them come down, fire bun all politician  
Ah cauzin dispute makin us their plan  
Oh your dishonesty and war is their illustration  
Competin' this is more than competition  
Could they? they fightin jus to enslave black man  
And now them parties jus ah cause bear partition  
And who is you no one takes any instruction...
