Skeeter Davis, Easy To Love (So Hard To Get)

I recall what I said to myself the very first day we met It's just a matter of time till I make him mine and then I found to my regret He was easy to love but so hard to get All the girls are crazy for him and that he already knows I took a look in his little black book and the competition surelly stopped me He's easy to love but so hard to get But if at first you don't succeed you know you got to try and try again And if at first he don't follow your leave You got to keep on goin' after him until you win Don't you know you'll never love a guy who's easy to get that wouldn't be much fun There's never a guy a standing right by there's always got to be the one Who's easy to love but so hard to get [guitar]

Yes he's easy to love but so hard to get
But I can't forget he'll be mine it's just a matter of time
