

# Skeeter Davis, He Says The Same Things To Me

Shall I tell you what he said to you when he kissed you last night  
I could tell it sigh for sigh and here's the reason why  
He says the same things to me he says the same things to me  
Ain't shall I tell you what he said to you as he held you so tight  
Let me tell you from the start I know it now by heart  
He says the same things to me he says the same things to me  
But I know how it must hurt you to find his love isn't real  
And if your heart is breaking think how I must feel  
And did he tell you there's no other girl that his only love is you  
If he did there's no surprise that's just the way he lies  
He says the same things to me he says the same things to me
