

# Skeeter Davis, I Got You

[ Bobby ]

Don't get no attention from the people on the street  
They don't even see us they just step right on our feet  
Two unnoticed people in this great big world are we  
And when I think about it I guess that's all we'll ever be

[ Both ]

But I got you and you got me and if they look they can see that we don't care  
I got you and you got me and baby that's all we will ever need

[ Skeeter ]

Looking through the window of a fancy diamond store  
Goin' window shopping for the things we can't afford  
People all around us with their noses in the air  
They walk right on by us just like we're not even there

[ Both ]

But I got you...

[ trumpet - steel ]

[ Bobby ]

Though the world around us hasn't time to know we're near  
We don't feel neglected no we'll never shed a tear

[ Skeeter ]

We may go unnoticed but we'll never be alone  
As long as we're together in a world that's all our own

[ Both ]

Cause I got you...

I got you and you got me and baby that's all we will ever need
