Skeeter Davis, Love Love Love

I gotta have love love love love more than anything in this world
Just give me love love love love lovin' you have one happy girl

No I don't need no fancy clothes and pretty diamond rings
No fur coat no man's dough I don't need none of those things
I don't want a great big mansion and care yacht on wide sea
A little house for two and me and you and love is all I need
I gotta have love...
[strings]
I gotta have love...

Now some girls find material things to build their queensdom homes
But love will always be around when all these things are gone
So give me love and heart and flowers and dreams then can come true
Keep me by your side and I'll be satisfied cause I know live is you
I gotta have love...
