

# Skeeter Davis, Somewhere With Me Sometime

I'm not asking you to make a lot of promises  
Or to say that you've been feeling like I am  
I may be sure just though but what I like to know  
Is would you like to go somewhere with me sometime  
We could sit around and talked the way we did that night  
When I met you you were with that friend of mine  
Things may not go just right just like they did that night  
So would you like to go somewhere with me sometime  
You're with the same girl as the night I met you  
Did you tell her that I said I lose a friend  
But since met you I just can't forget you  
So it looks like this is where our friendship ends  
We could sit around and talked the way we did that night  
Or do anything that we might have in mind  
Things may not go just right just like they did that night  
So would you like to go somewhere with me sometime  
[ guitar ]  
You're with the same girl...
