

Skeeter Davis, When You Gonna Bring Our Soldiers Home

When you gonna bring our soldiers home when you gonna bring our soldiers home
You promised that you would now don't you think you should
When you gonna bring our soldiers home

Every mother has to worry about the son she love
And every sweetheart has to worry too
Well a few don't call this war and what we're fighting for
I think it's time you brought them on don't you
When you gonna bring...
[steel]
Now you don't think I should protest a question what you do
But I know you could end this war today
And I think I've got a right cause I just got card tonight
The man I love was killed there yesterday
When you gonna bring...
When you gonna bring...
When you gonna bring...
