

# Skin, I'll Try

I dont understand nothing less  
Than this bitter release  
You standing firm but wont talk to me  
Makes it harder to hold on

But Ill try  
Ill try  
Ill try  
Tell me how you feel and Ill try

I dont know what you want from this  
Dont know nothing at all  
Just this vision that I cant leave  
Makes it harder to go on

Tell me how you feel and Ill try

Well fight this regret  
And smother the doubt  
Well conquer this

Well conquer regret  
And smother the doubt
