

Skin, Lost

What was i waiting for?
Waiting for the bubble to burst,
Over your stagnet poses,
I'm cool with what you're devil don't see,
Well i'll be fighting for the death of me,
We shot through all of our causes.

Days spent through my heart that,
Sever the love, kill all the pain, we've shared,
I won't be lost without you,
I;ve found a way to get through,
Now i'm up and running, strong enough to walk away,
And leave you alone, I won't be lost,
Won't be lost without you.

What were you waiting for?
Waiting for the straw to break?
Over the back of desperate ways,
Youb were a dream to me,
Now you're nothig than a heart that bleeds,
I'll wash you off and carry on.

Days spent through my heart that,
Sever the love, kill all the pain, we've shared,
I won't be lost without you (not gonna be lost without you)
I;ve found a way to get through (never gonna be lost without you)
Now i'm up and running, strong enough to walk away,
And leave you alone, I won't be lost,

Days spent through my heart that,
Sever the love, kill all the pain, we've shared,
I won't be lost without you (not gonna be lost without you)
I;ve found a way to get through (never gonna be lost without you)
Now i'm up and running, strong enough to walk away,
And leave you alone, I won't be lost,

I will not see you, I'll find another way to keep myself from getting lost in you
I will not see you, I'll find another way to keep myself from getting lost in you
