

Skin, Take Me On

Ive seen a picture
Of you and me
Youre looking violent
Im looking pleased

You got a face like a television
That keeps switching off
Im a free believer
But thats not enough for you

Chorus
You gotta take me on
Gotta give me what I want
Gotta take me on

Dont need a saviour
Dont need a queen
Gonna win with the sinners
Gonna sin where youve been

Press the button called spacebar
So we can see what you mean
Ive seen the future
But its not enough for you
