

# Skindive, Tranquillizer

My calm, my drug  
my justice, my saviour  
My killer, my mirror  
confessor & lover

my calm [truth and lies], my drug [desensitise me]  
my justice [shaping minds], my saviour [educate me]  
my killer [truth and lies], my mirror [desensitise me]  
confessor [shaping minds] & lover [educate me]

Solid state pacifier  
Beaming in tranquillise me  
Super cool by direction  
Keep in line, your intention. 2x

Smoother than straight oppression  
Shaping minds by direction  
TV's soon mother, teacher  
Full control pushing nearer

my calm [truth and lies], my drug [desensitise me]  
my justice [shaping minds], my saviour [educate me]  
my killer [truth and lies], my mirror [desensitise me]  
confessor [shaping minds] & lover [educate me]

{what you goddamn fight!}

Fill me up with drugs  
Enough to see behind the lies.  
Wash me out to clean my doubts  
Away from off my mind.

{and just once, i wanted to say  
what i really felt}

My calm, my drug  
my justice, my saviour  
My killer, my mirror  
confessor & lover
