

# Skindred, Selector

Easy selector cos I know that you're ruff  
And the way you play ya tunes ya know you're musically tough  
I catch your vibe and the way you carry on  
An you feel say you wicked as you rock the session  
Pull it back know one time dreadlocks beco me no  
You addy original don don  
Play the B-side this instrumental beg you a piece of the version  
Selector pull the tune back me brethren  
Selector pull it back again  
Selector wheel and come again no man  
Selector play the tune again  
Selector Selector you got to pull it up, got to pull it up  
Selector Selector you got to pick it up you gorra pull it up  
Move the decks and try to take up the mic  
And show the people in the place you've got the skills to excite  
You get blanked like your not even there  
Even though in ah dem face you just constantly stare  
Jack it again I wanna ride the rhythm I wanna rock the rhythm  
Now pull it up up up up up  
Murder the tune now with a subsonic boom  
Das how we rock out the room now pull it up up up up up  
Selector pull the tune again me brethren  
Selector pull it back again  
Selector wheel and come again no man  
Selector play the tune again  
Selector Selector you got to pull it up, got to pull it up
