Skinlab, Noah

All the love I give to you

You take away

And all the love you bring to me

I take away

Release the pain

From all the love that I give

Don't take away

From all the love that I give

Yeah, I've been through denial

Yeah, I've been self-deprived

What will it take...

What will it take...

Of my friends?

Of my friends?

Of my friends?

Of my friends?

I've been through denial

I've been self-deprived

What will it take to feel again?

No, you can be working on me

Don't take away

All the love that I give

Yeah, I've been through denial

Yeah, I've been self-deprived

What will it take...

What will it take...

Of my friends?

Of my friends?

Of my friends?

Of my friends?

I've been through denial

Yeah, I've been self-deprived

What will it take to feel again?

I've been through denial

I've been self-deprived

What will it take to feel again?

Of my friends?

All the love I give

Of my friends?

All the love you give

Of my friends?

All the love I give

Of my friends?

All the love you give

Of my friends

All the love I give

Of my friends

All the love you give

Of my friends

All the love you give

Of my friends

Of my friends
