

Skinny Puppy, Lahuman8

Within Passions (Of the?) Sounds

Against

Twice

No sinking

Fevers

Fortune

Suffocate

???

All shes ever said

Force of evil heart

???

???the real

Lie, lying, lying there is evil brain

All she ever said

Not leaving

All she ever said

???

(odyssey?)

???

Nothing matters

???

Nothing matters

Wishful thinking

Parasitic junkie

Wraps the noose

Cries the blues

To whoever looks and listens

To a bunch pass spaces turned away

???brain???

No word shall shake my faith

Dead poet with the head that rots in the grave

???leave me alone

Pushes hand up through the earth

Towards the sky

Reaching high

Dead poet

Said once

Once was enough

Time to lie

Time to die

Reaching up towards the sky

As she says once again

Turning me alone

So I left it alone

Leave me alone

Leave me alone

???

(she sits?)

???

???down the stairs

Towards the door

She walks up the stairs

So there

All alone
