

# Skip James, Devil Got My Woman

Must have been the devil, believe that woman has gone mad  
Must have been the devil, believe that woman has gone mad

Nothin' but the devil change my baby's mind  
Nothin' but the devil change my baby's mind

Laid there last night, laid there last night, tried to take my rest  
My mind got to ramblin' like wild geese from the west

Must have been the devil, believe that woman has gone mad  
Must have been the devil, believe that woman has gone mad

Woman I love, woman I love took off with my best friend  
Woman I love took off with my best friend
