

Skold Vs. KMFDM, It's Not What

None so blind as those that will not see
Fools rush in where angels fear to tread
What we acquire without sweat
We give away without regret

In your heart you know you're right
In you heart you know you might
Go on !

Fingers crossed
Eyes wide shut
Make do with what you got

It's not what you do, babe, it's what you don't
Not who you screw, baby, it's who you don't, who you won't

In your heart you know where you stand
In your heart you know you can't
Go on !

Head stuck up your ass
Good luck
You're a mess

Youth is wasted on the young
A little knowledge is a dangerous thing
Learn to crawl before you walk
Before you run
In the land of the blind
The one-eyed man is king

It's not what you do, babe, it's what you don't
Not what you will, baby, it's what you won't
It's not what you do, babe, it's what you don't
Not who you screw, baby, it's who you don't, who you won't
