

# Skrape, Isolated

I feel no pain  
I walk right through  
A no where man  
Learned from you

You get the one that you wished for you laugh to cry  
I guess the one that you wished for has made you cry

I told you, some way  
So quick to rename

Isolated

My grip is good  
I fall to stand  
A smile that could  
Screams out a plan

You get the one that you wished for you laugh to cry  
I guess the one that you wished for has made you cry

I told you, someway  
So quick to rename  
You're weary, no soul  
So quick to, rename

Some pills'll getcha (x7)

Yeah (x4)

I told you, some way  
So quick to rename  
You're weary, no soul  
So quick to rename

Isolated (x4)
