Skrape, Stand Up (Summer Song)

This fades into all that you say Up in, its all mine A virgin to the sound of today We all shine

Stand up, Stretch Your mind Were living in a summer song Breakout, Dont taste fine Were living in a summer song

This burns in my thoughts for today A frame of mind A picture in the sunlight and shade Alive we live life

Stand up, Stretch Your mind Were living in a summer song Breakout, Dont taste fine Were living in a summer song

Sunlight, Sunlight,

Stand up, Stretch Your mind Were living in a summer song Breakout, Dont taste fine Were living in a summer song

My summer song, My summer song, My summer song
