

# Skrewdriver, As Life Bleeds Away

Out there on the fields, where battles are fought  
There lies a million soldiers dying, in a war in which they've been caught  
But back home in the government where the traitors dwell  
With thoughts of profit, no ideals, they'll send you somewhere, pretty much like hell

-

(chorus)

As life bleeds away, as life bleeds away  
As life bleeds away, but the soldier tried  
As life bleeds away, as life bleeds away  
As life bleeds away, so does a nation's pride

-

In a war fought for profit, in a war fought for greed  
Life, it costs nothing, it's just another mouth to feed  
In a war fought against a brother, in a war from which we're suffering still  
A continent still mourns her children, in a war in which White Pride was killed
