Skrewdriver, As Life Bleeds Away

Out there on the fields, where battles are fought There lies a million soldiers dying, in a war in which they've been caught But back home in the government where the traitors dwell With thoughts of profit, no ideals, they'll send you somewhere, pretty much like hell

(chorus)

As life bleeds away, as life bleeds away As life bleeds away, but the soldier tried As life bleeds away, as life bleeds away As life bleeds away, so does a nation's pride

_

In a war fought for profit, in a war fought for greed Life, it costs nothing, it's just another mouth to feed In a war fought against a brother, in a war from which we're suffering still A continent still mourns her children, in a war in which White Pride was killed
