

# Skrewdriver, God Of Thunder

Panic spreads, misery  
Lot of people live in poverty  
Decline of Europe, decline of man  
Long time ago when the rot began

We need a saviour, before long  
Must be soon before the chance is gone  
The great leader, from the north  
A true warrior to defend the cause

(chorus)  
God of Thunder, God of War  
Hail Europe! Hail Thor!  
God of Thunder, God of War  
Hail Europe! Hail Thor!

When he comes, the people rise  
Crush all treason as corruption dies  
Don't want more weaklings on our knees  
We'll stand proud and destroy the disease

(chorus)

It seems that now's our time of need  
Now's the time for all heroic deeds  
Now's the time to stand and break old chains  
End our people's misery and pain

(chorus)

After battle, at victory's call  
We'll stand and drink to our enemies fall  
Grind their bones into the sand  
Make sure their evil never rises again

(chorus)
